

REMARKS

Applicant respectfully requests that the above-described amendments be made part of the official record in the present application and that they be considered by the Examiner. By this second preliminary amendment, new claims 19-31 have been added. Hence claims 1-31 are pending in the application.

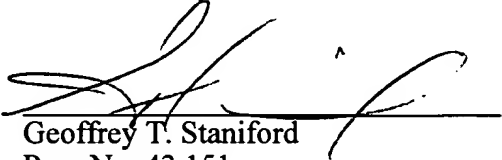

The new claims are directed to the display of portions of a written work from a network web site containing one or more bodies of written work. Support for the new claims is provided, for example, in the Specification at page 20 (lines 10-15), and in Figures 10 and 34E, where it is described that a system according to one embodiment of the invention can be used to allow a user to browse through different magazines. Likewise, page 25 (lines 5-6) and Figure 38 describe how the contents of different magazines can be viewed by a user. Thus, it is respectfully submitted that all elements included in the new claims added hereby are fully disclosed and supported in the original specification, and that no new matter has been introduced.

Please charge any additional charges, or credit any over payments, to our Deposit Account Number 04-0822.

Respectfully submitted,
